Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 30-34 in the reply filed on December 8, 2006 is acknowledged. The traversal is on the ground(s) that it would not constitute an undue burden to search both inventions. This argument has been considered, but not found persuasive. MPEP § 808.02 recites that for the purposes of the initial requirement of a restriction, a serious burden on the examiner may be prima facie shown if the examiner shows by appropriate explanation either separate classification, separate status in the art, or a different field of search as defined in MPEP § 808.02. Since the Examiner has shown a separate status in the art for the two groups of claims, a burden for examining both groups has been shown.

The requirement is still deemed proper and is therefore made FINAL.

Reissue Applications

2. An inquiry is made into the existence of an assignment of this application. It is noted that there is a statement of non-assignment filed April 12, 2004. However USPTO records indicate that an assignment was filed on May 31, 2006. It is noted that there must be written consent of all assignees owning an undivided interest in the patent in compliance with 37 CFR 1.172. See MPEP 1410.01. Clarification is required.

3. The amendment filed July 13, 2005 proposes amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

Art Unit: 1775

4. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error, which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 30-34 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The error relied upon to support the reissue application is not sufficient. See *MPEP 1414, section II*. Applicant does not identify a single word, phrase or expression in the claim and how it renders the original patent inoperative or invalid. The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

Claim Objections

5. Claim 1 is objected to because of the following informalities:

Claim 1, line 5 contains the word "lest". In light of the claim language, should the word be "least" Clarification is required.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 30-34 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent no. 4,673,609, Hill.

Art Unit: 1775

Regarding claim 30

Hill discloses a unidirectional panel comprised of panel of transparent (substrate) material having a first design visible from one side yet not the other, (column 2, lines 23-30). The design (second coating) on the panel is superimposed on a pattern of opaque elements (first coating), (column 3, lines 10-33), meeting the limitations of claim 30.

Regarding claims 31-34

The panels can be used on vehicles (motor vehicles), (column 21, lines 49-67), meeting the limitations of claim 31.

The pattern of the panel can be in the form of indicia, (column 22, lines 52-60), meeting the limitations of claim 32.

The design portion of the panel can have two or more colored areas, (column 14, lines 38-50), meeting the limitations of claim 33.

The panel can be attached to a vehicle windshield, (column 15, lines 11-24), meeting the limitations of claim 34.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gwendolyn Blackwell whose telephone number is (571) 272-1533. The examiner can normally be reached on Monday - Thursday; 6:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer McNeil can be reached on (571) 272-1540. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
